Adding Doubles Plus 1 (B)

Use an adding doubles strategy to find each sum

Example: 9 + 10 = 9 + 9 + 1 = 18 + 1 = 19

2 + 3 =	7 + 8 =	2 + 3 =
14 + 15 =	10 + 11 =	10 + 11 =
4 + 5 =	3 + 4 =	9 + 10 =
11 + 12 =	8 + 9 =	14 + 15 =
15 + 16 =	5 + 6 =	13 + 14 =
1 + 2 =	3 + 4 =	15 + 16 =
12 + 13 =	11 + 12 =	5 + 6 =
9 + 10 =	6 + 7 =	1 + 2 =
13 + 14 =	4 + 5 =	8 + 9 =
6 + 7 =	7 + 8 =	12 + 13 =
