Dividing Money (F)

Calculate each quotient.

1. $2 \overline{)\ £20.00}$

2. $6 \overline{)\ £27.00}$

3. $2 \overline{)\ £13.00}$

4. $8 \overline{)\ £96.00}$

5. $9 \overline{)\ £135.00}$

6. $4 \overline{)\ £22.00}$

7. $3 \overline{)\ £16.50}$

8. $2 \overline{)\ £26.00}$

9. $9 \overline{)\ £130.50}$

10. If 9 identical figurines cost £22.50, how much did each figurine cost?

Dividing Money (F) Answers

Calculate each quotient.

1. £10.00
   2) £20.00
   −£20.00
   £0.00

2. £4.50
   6) £27.00
   −£24.00
   £3.00
   −£3.00
   £0.00

3. £6.50
   2) £13.00
   −£12.00
