Adding Doubles Minus 1 (D)

Use an adding doubles strategy to find each sum

Example: 6 + 5 = 6 + 6 - 1 = 12 - 1 = 11

7 + 6 =   7 + 6 =   7 + 6 =

5 + 4 =   9 + 8 =   2 + 1 =

8 + 7 =   1 + 0 =   4 + 3 =

3 + 2 =   4 + 3 =   1 + 0 =

1 + 0 =   8 + 7 =   5 + 4 =

4 + 3 =   10 + 9 =   8 + 7 =

6 + 5 =   2 + 1 =   10 + 9 =

2 + 1 =   6 + 5 =   9 + 8 =

10 + 9 =   5 + 4 =   3 + 2 =

9 + 8 =   3 + 2 =   6 + 5 =
