

Graphing Linear Systems (I)

Graph each system and identify its solution.

1. $9x - 4y = -8$
 $3x - 2y = 2$

Solution: (----,----)

2. $11x + 3y = -24$
 $x + y = 0$

Solution: (----,----)

3. $15x - 2y = -16$
 $11x - 2y = -8$

Solution: (----,----)

4. $x + 4y = -12$
 $3x + y = 8$

Solution: (----,----)
