

Linear Equation from Two Points (F)

Plot a line through the two points then determine the equation for the line.

1.

A(-4,-2)

B(-2,-5)

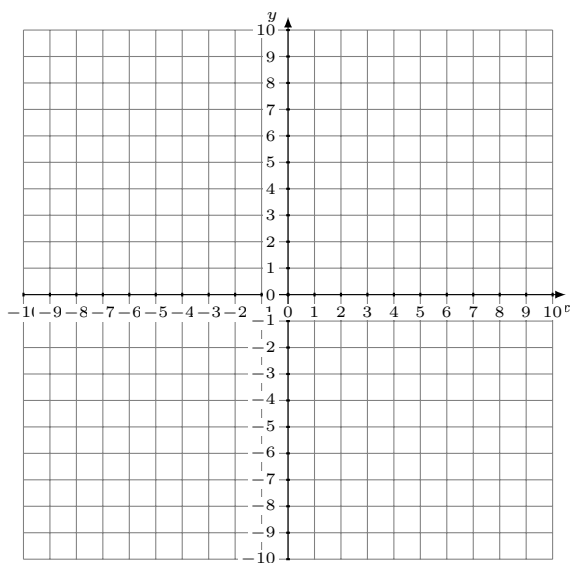

Equation: $y =$

2.

A(3,3)

B(1,7)

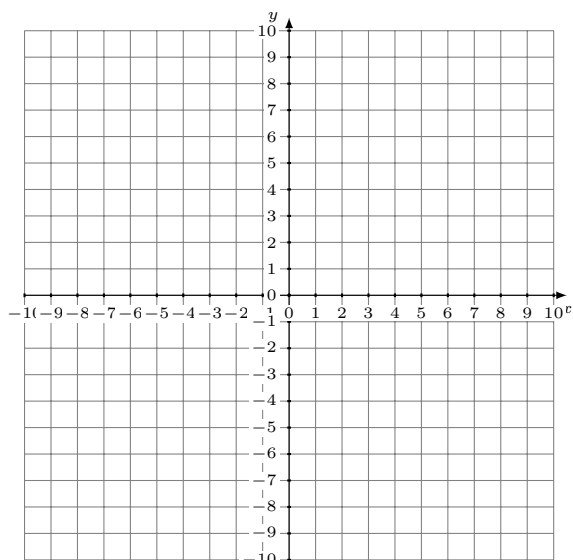

Equation: $y =$

3.

A(-6,-1)

B(-4,2)

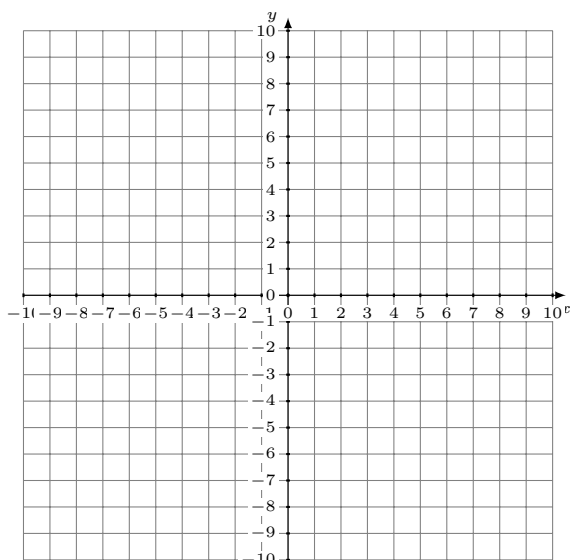

Equation: $y =$

4.

A(6,0)

B(0,-5)

Equation: $y =$
