

Linear Equation from Two Points (I)

Plot a line through the two points then determine the equation for the line.

1.

A(-4,1)

B(2,-2)

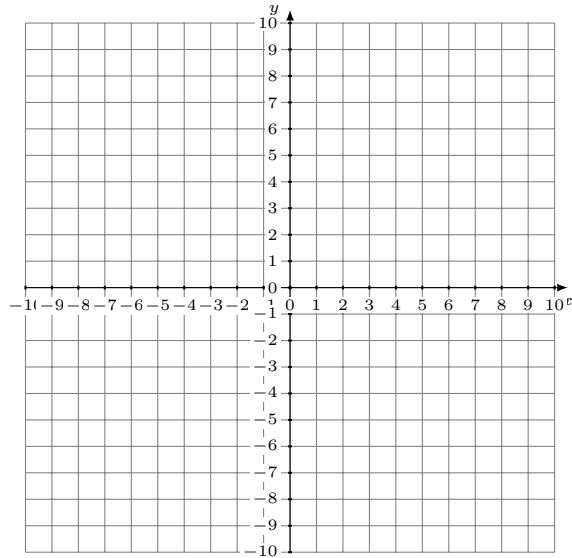

Equation: $y =$

2.

A(-4,-7)

B(-2,-8)

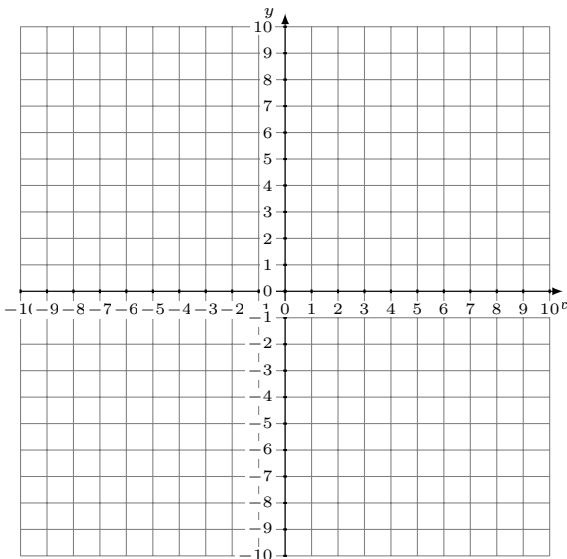

Equation: $y =$

3.

A(-3,-8)

B(2,-8)

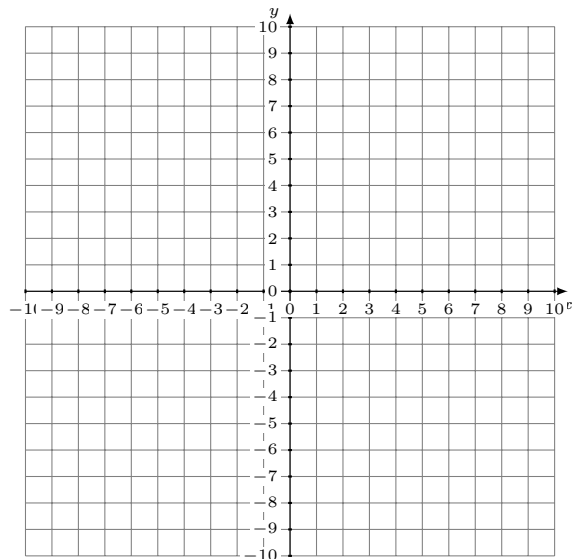

Equation: $y =$

4.

A(-4,-4)

B(-2,1)

Equation: $y =$
