Adding/Subtracting Decimals to Thousandths (J) Answers

Calculate each sum or difference.

$2.906 + 1.755 = 4.661$

$7.644 - 4.094 = 3.55$

$4.810 + 3.463 = 8.273$

$3.847 + 2.642 = 6.489$

$7.579 + 2.994 = 10.573$

$5.825 - 2.191 = 3.634$

$9.449 - 3.837 = 5.612$

$3.754 + 2.518 = 6.272$

$9.933 - 9.764 = 0.169$

$4.254 + 1.631 = 5.885$

$6.667 + 3.473 = 10.14$

$1.910 - 1.528 = 0.382$

$4.651 + 1.008 = 5.659$

$8.205 + 7.508 = 15.713$

$9.447 - 2.429 = 7.018$

$7.813 - 2.096 = 5.717$

$7.667 - 1.837 = 5.83$

$9.201 - 6.555 = 2.646$

$9.722 - 5.891 = 3.831$

$6.888 + 5.506 = 12.394$
