Subtracting Decimals To Thousandths (A) Answers

Calculate each difference.

$$3.636 - 3.375 = 0.261$$

$$9.025 - 5.973 = 3.052$$

$$8.665 - 3.587 = 5.078$$

$$7.544 - 3.664 = 3.88$$

$$6.211 - 2.039 = 4.172$$

$$9.278 - 2.548 = 6.73$$

$$5.130 - 5.127 = 0.003$$

$$9.774 - 3.168 = 6.606$$

$$6.049 - 1.903 = 4.146$$

$$5.585 - 3.173 = 2.412$$

$$2.729 - 1.296 = 1.433$$

$$4.102 - 2.810 = 1.292$$

$$6.104 - 4.132 = 1.972$$

$$8.826 - 2.913 = 5.913$$

$$3.330 - 2.367 = 0.963$$

$$9.367 - 3.432 = 5.935$$

$$5.950 - 1.553 = 4.397$$

$$9.040 - 7.048 = 1.992$$

$$6.899 - 1.067 = 5.832$$

$$5.992 - 2.307 = 3.685$$
