

# Adding Proper and Improper Fractions (A)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Score: \_\_\_\_\_

Calculate each sum.

$$1. \quad \frac{1}{2} + \frac{3}{2} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

Solve                  Simplify                  Convert ↓

$$2. \quad \frac{4}{9} + \frac{16}{9} = \underline{\quad} = \underline{\quad}$$

$$3. \quad \frac{2}{8} + \frac{11}{8} = \underline{\quad} = \underline{\quad}$$

$$4. \quad \frac{1}{3} + \frac{7}{3} = \underline{\quad} = \underline{\quad}$$

$$5. \quad \frac{2}{3} + \frac{5}{3} = \underline{\quad} = \underline{\quad}$$

$$6. \quad \frac{5}{8} + \frac{13}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \quad \frac{4}{7} + \frac{8}{7} = \underline{\quad} = \underline{\quad}$$

$$8. \quad \frac{2}{7} + \frac{8}{7} = \underline{\quad} = \underline{\quad}$$

$$9. \quad \frac{1}{7} + \frac{11}{7} = \underline{\quad} = \underline{\quad}$$

$$10. \quad \frac{4}{5} + \frac{6}{5} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$
