

Adding and Subtracting Two Fractions (D)

Name: _____

Date: _____

Score: _____

Calculate each result.

1. $\frac{17}{6} + \frac{13}{6} = \underline{\quad} = \underline{\quad} =$

2. $\frac{13}{6} + \frac{1}{6} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

3. $\frac{20}{8} + \frac{18}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

4. $\frac{7}{3} + \frac{2}{3} = \underline{\quad} = \underline{\quad} =$

5. $\frac{25}{8} - \frac{12}{8} = \underline{\quad} = \underline{\quad}$

6. $\frac{7}{3} + \frac{1}{3} = \underline{\quad} = \underline{\quad}$

7. $\frac{11}{3} - \frac{5}{3} = \underline{\quad} = \underline{\quad} =$

8. $\frac{7}{2} - \frac{3}{2} = \underline{\quad} = \underline{\quad} =$

9. $\frac{13}{4} - \frac{1}{4} = \underline{\quad} = \underline{\quad} =$

10. $\frac{13}{4} - \frac{2}{4} = \underline{\quad} = \underline{\quad}$
