

Adding and Subtracting Two Fractions (J)

Name: _____

Date: _____

Score: _____

Calculate each result.

1. $\frac{7}{2} + \frac{1}{2} = \underline{\quad} = \underline{\quad} =$

2. $\frac{32}{9} + \frac{35}{9} = \underline{\quad} = \underline{\quad}$

3. $\frac{23}{8} - \frac{1}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

4. $\frac{32}{9} - \frac{13}{9} = \underline{\quad} = \underline{\quad}$

5. $\frac{28}{8} + \frac{2}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

6. $\frac{29}{8} + \frac{10}{8} = \underline{\quad} = \underline{\quad}$

7. $\frac{17}{9} + \frac{30}{9} = \underline{\quad} = \underline{\quad}$

8. $\frac{24}{7} - \frac{16}{7} = \underline{\quad} = \underline{\quad}$

9. $\frac{13}{5} - \frac{1}{5} = \underline{\quad} = \underline{\quad}$

10. $\frac{10}{4} - \frac{2}{4} = \underline{\quad} = \underline{\quad} =$
