Dividing Fractions (G)

Name: _____ Date: _____ Score: _____

Calculate each quotient.

1. $\dfrac{3}{4} \div 6 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$

2. $\dfrac{6}{7} \div 9 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$

3. $3 \div \dfrac{3}{5} = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} =$

4. $3 \div \dfrac{3}{4} = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} =$

5. $6 \div \dfrac{3}{7} = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} =$

6. $\dfrac{2}{5} \div 2 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$

7. $\dfrac{3}{4} \div 3 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$

8. $9 \div \dfrac{3}{5} = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} =$

9. $\dfrac{2}{3} \div 6 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$

10. $\dfrac{5}{9} \div 5 = \overline{} \div \overline{} = \overline{} \times \overline{} = \overline{} = \overline{}$
