

Multiplying Fractions by Whole Numbers (F)

Name: _____

Date: _____

Score: _____ /10

Multiply, simplify and express the product as a mixed fraction if necessary.

1. $\frac{7}{8} \times 8 = \text{---} = \text{---} = \text{---}$

2. $9 \times \frac{7}{4} = \text{---} = \text{---}$

3. $9 \times \frac{13}{8} = \text{---} = \text{---}$

4. $9 \times \frac{9}{5} = \text{---} = \text{---}$

5. $\frac{20}{9} \times 2 = \text{---} = \text{---}$

6. $\frac{9}{4} \times 8 = \text{---} = \text{---} = \text{---}$

7. $9 \times \frac{1}{6} = \text{---} = \text{---} = \text{---}$

8. $4 \times \frac{6}{5} = \text{---} = \text{---}$

9. $4 \times \frac{7}{3} = \text{---} = \text{---}$

10. $\frac{9}{4} \times 7 = \text{---} = \text{---}$
