

## Subtracting Two Proper Fractions (C)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Score: \_\_\_\_\_

Calculate each difference.

1.  $\frac{2}{5} - \frac{1}{15} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

2.  $\frac{5}{6} - \frac{1}{2} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

3.  $\frac{4}{14} - \frac{1}{7} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

4.  $\frac{1}{3} - \frac{3}{12} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

5.  $\frac{13}{15} - \frac{2}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

6.  $\frac{1}{2} - \frac{1}{4} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

7.  $\frac{9}{10} - \frac{2}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

8.  $\frac{3}{4} - \frac{6}{12} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

9.  $\frac{7}{10} - \frac{2}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

10.  $\frac{5}{10} - \frac{1}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad}$
