

## Subtracting Negative Fractions (H)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Score: \_\_\_\_\_

Calculate each difference.

1.  $\left(-\frac{6}{11}\right) - \left(-\frac{6}{9}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

2.  $\left(-\frac{1}{3}\right) - \left(-\frac{4}{7}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad}$

3.  $\left(-\frac{4}{7}\right) - \frac{2}{8} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

4.  $\left(-\frac{3}{6}\right) - \left(-\frac{8}{11}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

5.  $\left(-\frac{7}{10}\right) - \frac{2}{11} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

6.  $\left(-\frac{1}{4}\right) - \frac{2}{3} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

7.  $\left(-\frac{5}{7}\right) - \left(-\frac{5}{8}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad}$

8.  $\left(-\frac{5}{8}\right) - \left(-\frac{2}{3}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad}$

9.  $\left(-\frac{10}{11}\right) - \left(-\frac{5}{9}\right) = \underline{\quad} - \underline{\quad} = \underline{\quad}$

10.  $\left(-\frac{1}{3}\right) - \frac{4}{8} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$
