

Complementary Angles (A)

Find the complementary angle measurement for each measured angle.

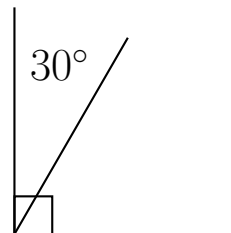

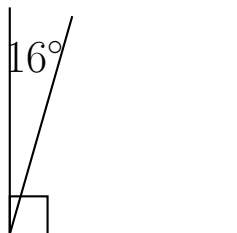

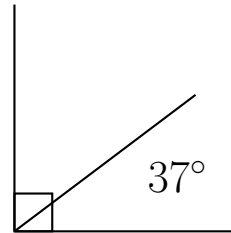

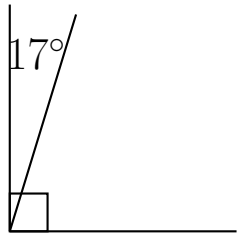

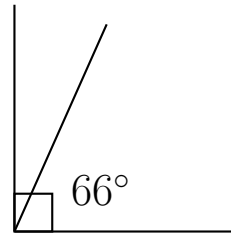

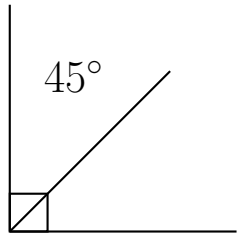

Complementary Angles (A) Answers

Find the complementary angle measurement for each measured angle.

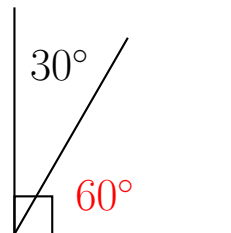

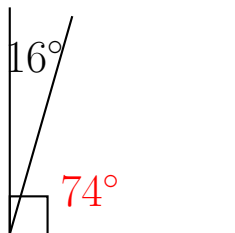

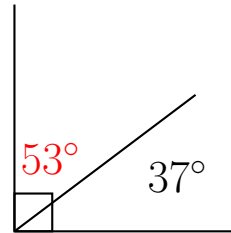

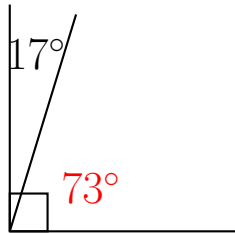

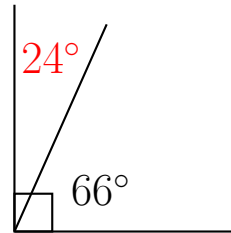

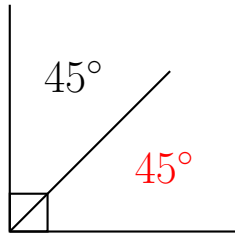

Complementary Angles (B)

Find the complementary angle measurement for each measured angle.

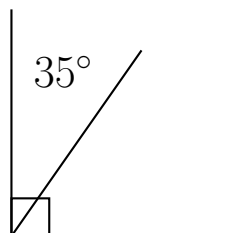

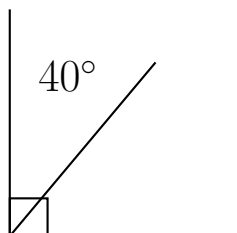

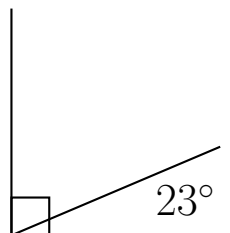

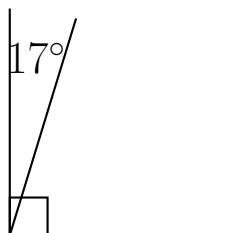

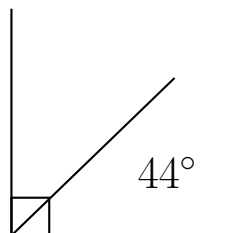

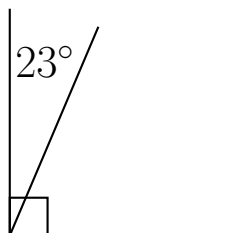

Complementary Angles (B) Answers

Find the complementary angle measurement for each measured angle.

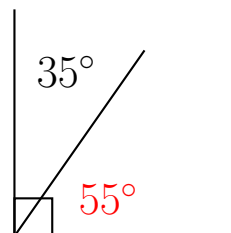

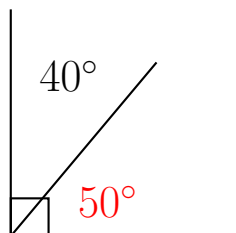

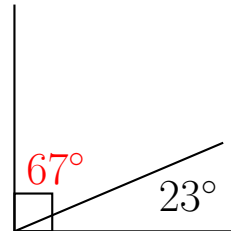

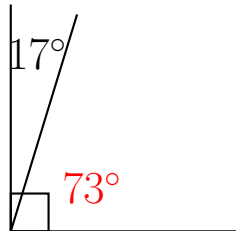

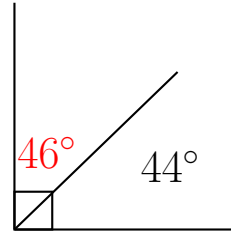

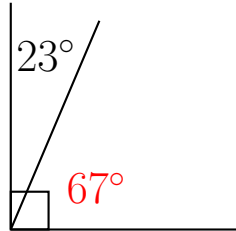

Complementary Angles (C)

Find the complementary angle measurement for each measured angle.

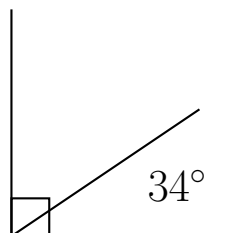

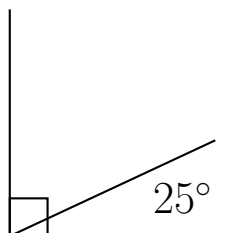

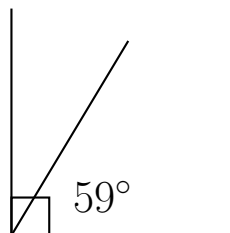

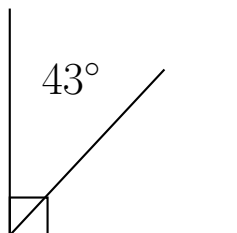

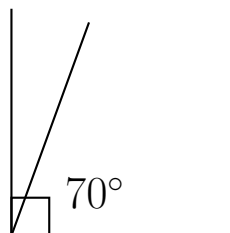

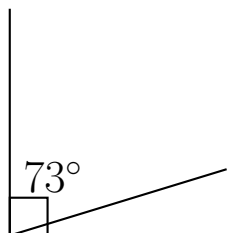

Complementary Angles (C) Answers

Find the complementary angle measurement for each measured angle.

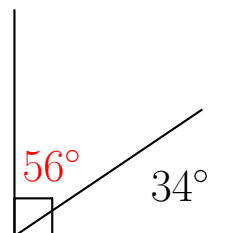

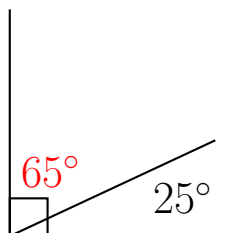

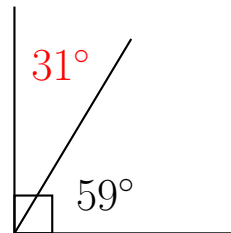

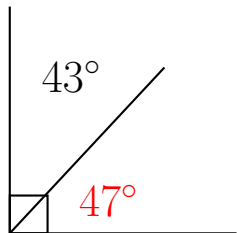

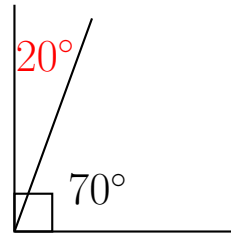

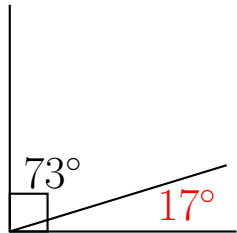

Complementary Angles (D)

Find the complementary angle measurement for each measured angle.

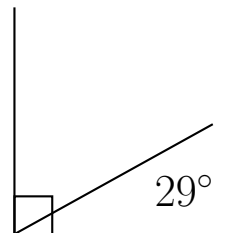

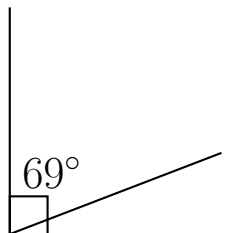

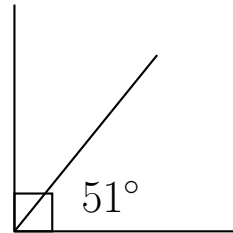

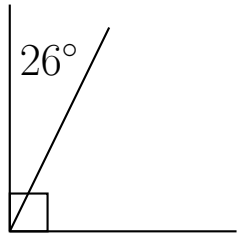

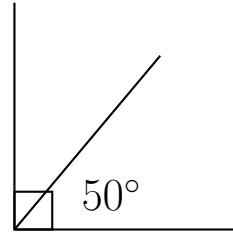

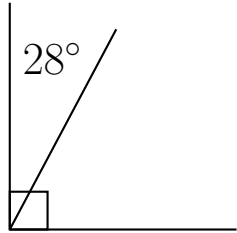

Complementary Angles (D) Answers

Find the complementary angle measurement for each measured angle.

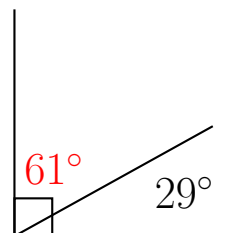

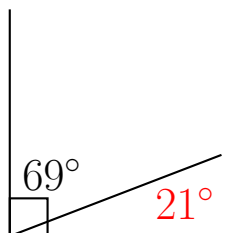

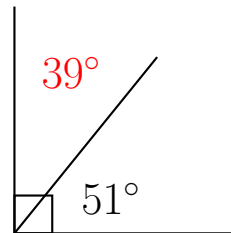

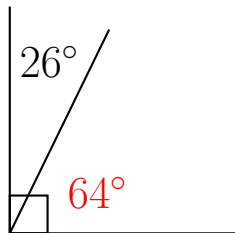

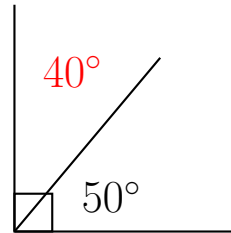

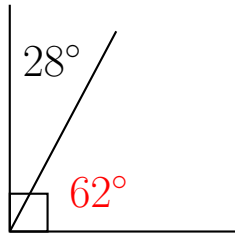

Complementary Angles (E)

Find the complementary angle measurement for each measured angle.

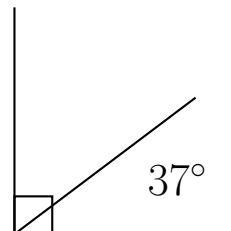

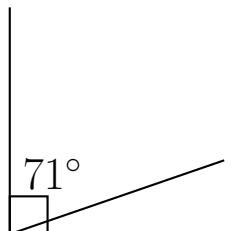

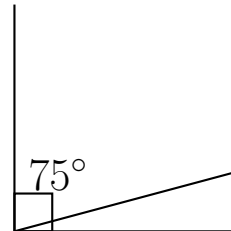

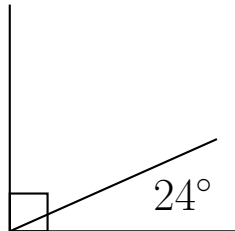

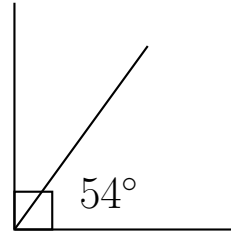

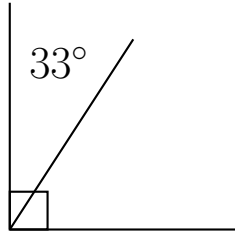

Complementary Angles (E) Answers

Find the complementary angle measurement for each measured angle.

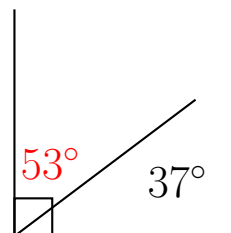

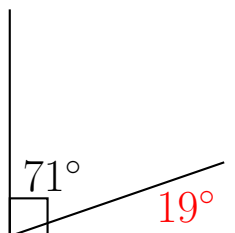

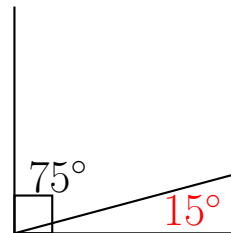

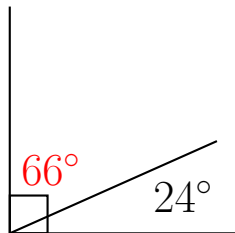

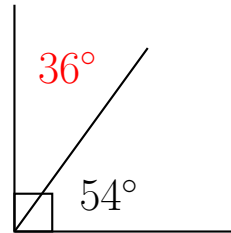

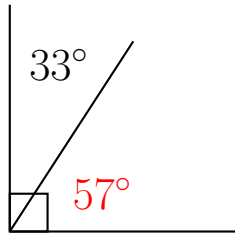

Complementary Angles (F)

Find the complementary angle measurement for each measured angle.

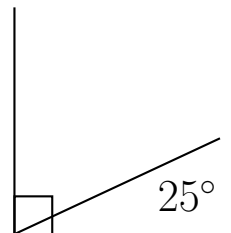

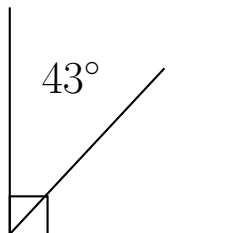

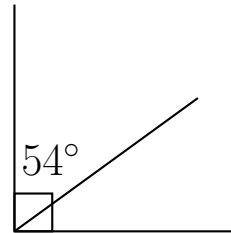

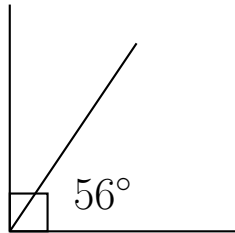

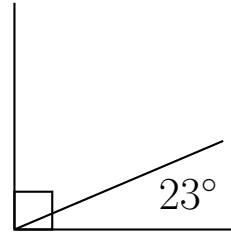

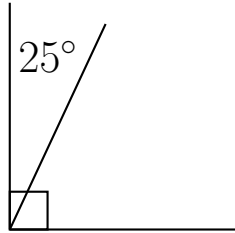

Complementary Angles (F) Answers

Find the complementary angle measurement for each measured angle.

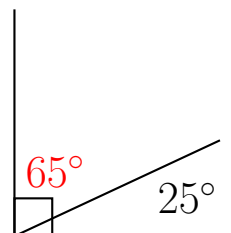

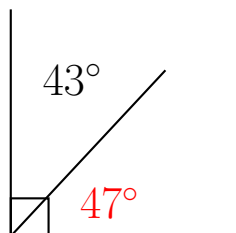

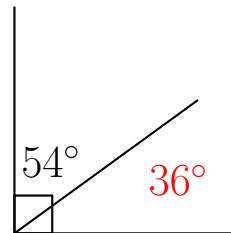

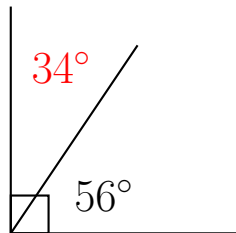

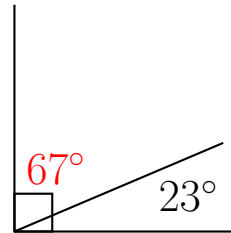

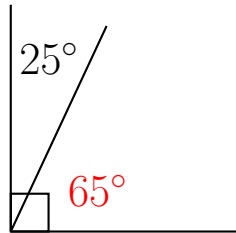

Complementary Angles (G)

Find the complementary angle measurement for each measured angle.

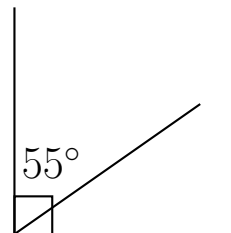

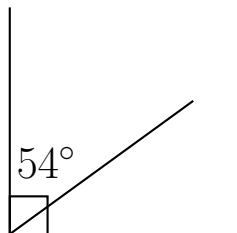

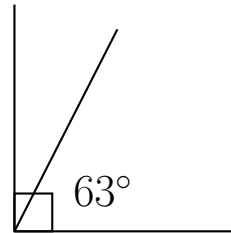

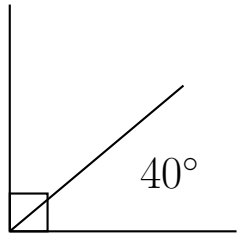

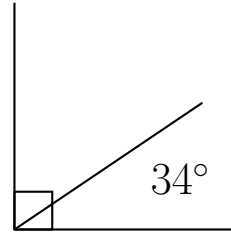

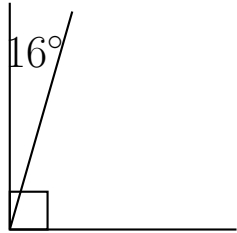

Complementary Angles (G) Answers

Find the complementary angle measurement for each measured angle.

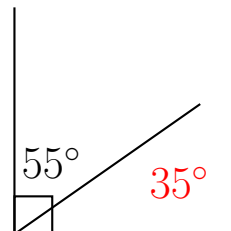

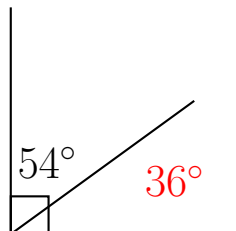

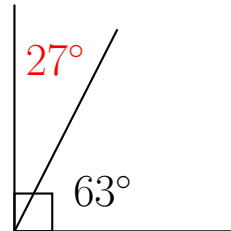

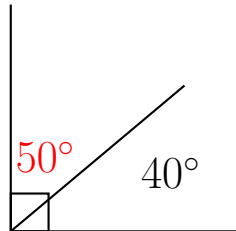

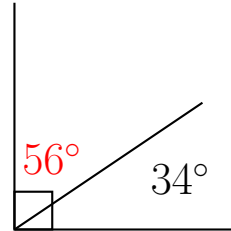

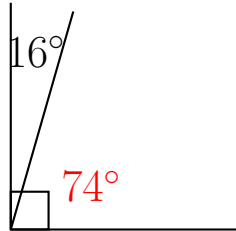

Complementary Angles (H)

Find the complementary angle measurement for each measured angle.

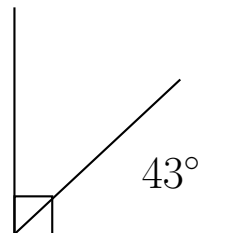

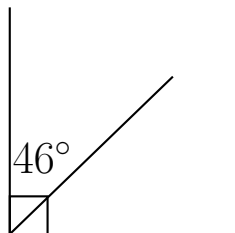

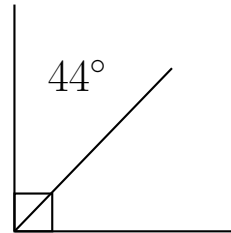

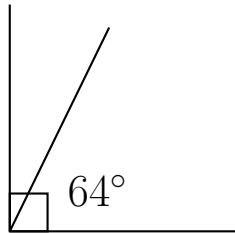

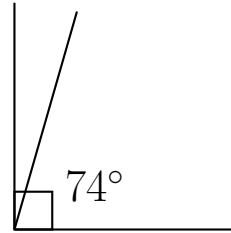

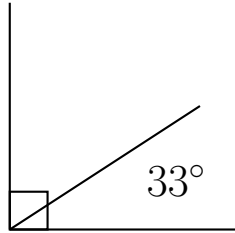

Complementary Angles (H) Answers

Find the complementary angle measurement for each measured angle.

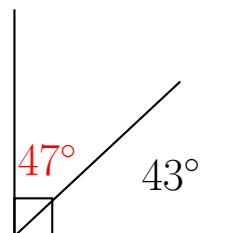

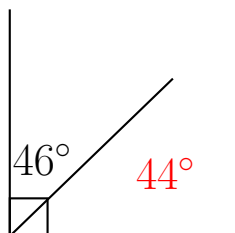

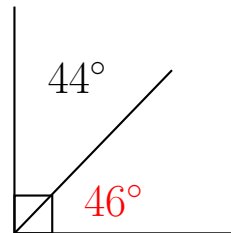

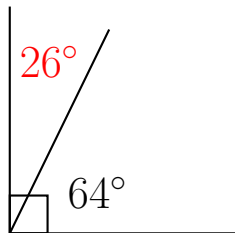

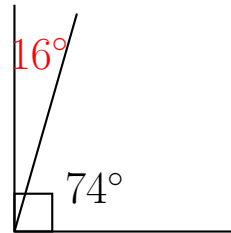

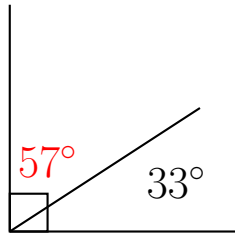

Complementary Angles (I)

Find the complementary angle measurement for each measured angle.

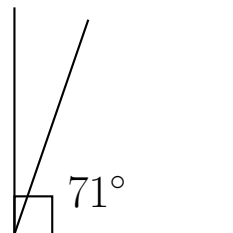

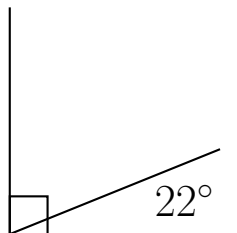

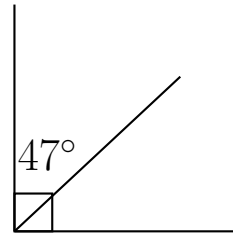

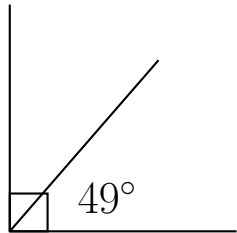

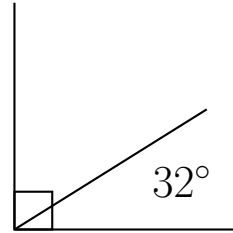

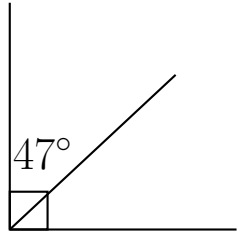

Complementary Angles (I) Answers

Find the complementary angle measurement for each measured angle.

Complementary Angles (J)

Find the complementary angle measurement for each measured angle.

Complementary Angles (J) Answers

Find the complementary angle measurement for each measured angle.
