

# Cosine Ratio (A)

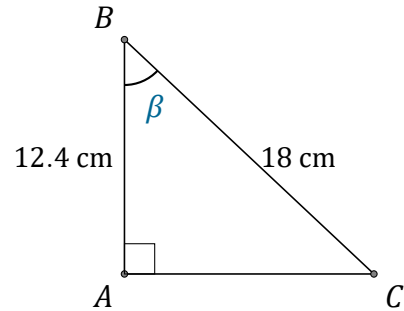

Name: \_\_\_\_\_

Date: \_\_\_\_\_

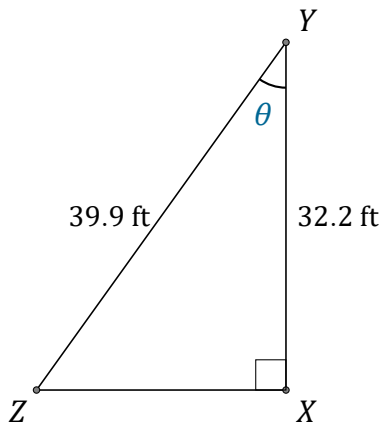

Calculate the angle values using the cosine ratio:  $\cos(\alpha) = \frac{A}{H}$

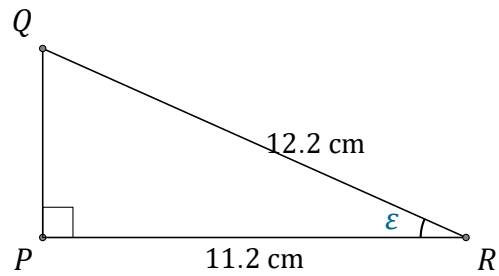

$$\alpha = \angle KNM = \underline{\hspace{2cm}}$$

$$\beta = \angle ABC = \underline{\hspace{2cm}}$$

$$\theta = \angle XYZ = \underline{\hspace{2cm}}$$

$$\epsilon = \angle PRQ = \underline{\hspace{2cm}}$$
