

# Comparing Integers (D)

Compare the pairs of integers using  $<$ ,  $>$ , or  $=$

$11 \square 12$

$6 \square 4$

$-1 \square 1$

$5 \square 3$

$12 \square 14$

$-10 \square -8$

$4 \square 5$

$11 \square 12$

$15 \square 17$

$-9 \square -11$

$-6 \square -5$

$1 \square -1$

$-13 \square -12$

$10 \square 8$

$-14 \square -13$

$9 \square 8$

$-1 \square 1$

$-10 \square -9$

$-8 \square -6$

$-5 \square -6$

$8 \square 10$

$5 \square 3$

$2 \square 1$

$12 \square 11$

$5 \square 4$

$10 \square 12$

$1 \square 2$

$0 \square -1$

$5 \square 4$

$-12 \square -13$

$-9 \square -8$

$-5 \square -7$

$11 \square 12$

$-12 \square -11$

$14 \square 13$

$1 \square 0$

$0 \square -2$

$-8 \square -9$

$15 \square 16$

$-7 \square -6$

# Comparing Integers (D) Answers

Compare the pairs of integers using  $<$ ,  $>$ , or  $=$

$11 < 12$

$6 > 4$

$-1 < 1$

$5 > 3$

$12 < 14$

$-10 < -8$

$4 < 5$

$11 < 12$

$15 < 17$

$-9 > -11$

$-6 < -5$

$1 > -1$

$-13 < -12$

$10 > 8$

$-14 < -13$

$9 > 8$

$-1 < 1$

$-10 < -9$

$-8 < -6$

$-5 > -6$

$8 < 10$

$5 > 3$

$2 > 1$

$12 > 11$

$5 > 4$

$10 < 12$

$1 < 2$

$0 > -1$

$5 > 4$

$-12 > -13$

$-9 < -8$

$-5 > -7$

$11 < 12$

$-12 < -11$

$14 > 13$

$1 > 0$

$0 > -2$

$-8 > -9$

$15 < 16$

$-7 < -6$
