Circumference and Area of Circles (C) Answers

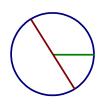

Find the circumference and area of each circle to one decimal place.

r = 4 yd

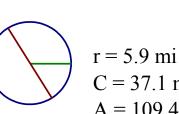

C = 25.1 yd

r = 8.3 in C = 52.2 in A = 216.4 sq. in

A = 22.9 sq. mi

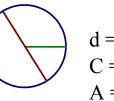

C = 37.1 mi A = 109.4 sq. mi

A = 28.3 sq. in

d = 0.2 in

C = 0.6 in

d = 7.5 cmC = 23.6 cmA = 44.2 sq. cm r = 6.3 cmC = 39.6 cmA = 124.7 sq. cm
