

# Triangles Measurements (H)

Calculate the missing measurements for each triangle.

1.

$P = 28 \text{ mi}$   
 $A = ? \text{ mi}^2$

2.

$P = 56.6 \text{ ft}$   
 $A = ? \text{ ft}^2$

3.

$P = 56.7 \text{ AU}$   
 $A = ? \text{ AU}^2$

4.

$P = 48.4 \text{ yd}$   
 $A = ? \text{ yd}^2$

5.

$P = 53.2 \text{ mm}$   
 $A = ? \text{ mm}^2$

6.

$P = 29.2 \text{ mm}$   
 $A = ? \text{ mm}^2$
