

Triangles Measurements (G)

Calculate the area of each triangle using Heron's formula.

1.

$$P = ? \text{ AU}$$

$$A = ? \text{ AU}^2$$

2.

$$P = ? \text{ cm}$$

$$A = ? \text{ cm}^2$$

3.

$$P = ? \text{ yd}$$

$$A = ? \text{ yd}^2$$

4.

$$P = ? \text{ mi}$$

$$A = ? \text{ mi}^2$$

5.

$$P = ? \text{ mi}$$

$$A = ? \text{ mi}^2$$

6.

$$P = ? \text{ nm}$$

$$A = ? \text{ nm}^2$$
