

Dividing Money (E)

Calculate each quotient.

1. $70 \overline{) \$1893.50}$

2. $13 \overline{) \$154.96}$

3. $88 \overline{) \$7953.44}$

4. $46 \overline{) \$1330.78}$

5. $85 \overline{) \$3330.30}$

6. $50 \overline{) \$3983.50}$

7. $88 \overline{) \$3226.96}$

8. $49 \overline{) \$3702.93}$

9. $30 \overline{) \$2109.60}$

10. If 51 identical meals cost \$2395.98, how much did each meal cost?
