

Dividing Money (C)

Calculate each quotient.

1. $24 \overline{) \$744.00}$

2. $15 \overline{) \$830.25}$

3. $93 \overline{) \$5998.50}$

4. $22 \overline{) \$650.10}$

5. $40 \overline{) \$2054.00}$

6. $42 \overline{) \$1215.90}$

7. $69 \overline{) \$5099.10}$

8. $61 \overline{) \$1415.20}$

9. $12 \overline{) \$542.40}$

10. If 56 identical toy robots cost \$736.40, how much did each toy robot cost?
