

Dividing Money (B)

Calculate each quotient.

1. $62 \overline{) \$5865.20}$

2. $58 \overline{) \$4408.00}$

3. $75 \overline{) \$1815.00}$

4. $49 \overline{) \$3047.80}$

5. $22 \overline{) \$1060.40}$

6. $84 \overline{) \$7711.20}$

7. $21 \overline{) \$403.20}$

8. $58 \overline{) \$5254.80}$

9. $50 \overline{) \$810.00}$

10. If 96 identical backpacks cost \$3532.80, how much did each backpack cost?
