

## Dividing Money (F)

Calculate each quotient.

1.  $42 \overline{) \$3578.40}$

2.  $29 \overline{) \$997.60}$

3.  $17 \overline{) \$754.80}$

4.  $61 \overline{) \$1586.00}$

5.  $53 \overline{) \$1992.80}$

6.  $79 \overline{) \$5703.80}$

7.  $92 \overline{) \$7249.60}$

8.  $20 \overline{) \$1452.00}$

9.  $76 \overline{) \$1596.00}$

10. If 29 identical figurines cost \$336.40, how much did each figurine cost?
