

Dividing Money (F)

Calculate each quotient.

1. $26 \overline{) \$2148.64}$

2. $69 \overline{) \$2736.54}$

3. $12 \overline{) \$717.24}$

4. $97 \overline{) \$8727.09}$

5. $22 \overline{) \$2003.32}$

6. $42 \overline{) \$2944.20}$

7. $14 \overline{) \$813.40}$

8. $27 \overline{) \$2439.18}$

9. $90 \overline{) \$1190.70}$

10. If 85 identical figurines cost \$7106.00, how much did each figurine cost?
