

Dividing Money (G)

Calculate each quotient.

1. $64 \overline{) \$1164.80}$

2. $31 \overline{) \$647.90}$

3. $29 \overline{) \$2589.70}$

4. $17 \overline{) \$1222.30}$

5. $58 \overline{) \$2517.20}$

6. $78 \overline{) \$6099.60}$

7. $95 \overline{) \$1377.50}$

8. $54 \overline{) \$2338.20}$

9. $34 \overline{) \$1397.40}$

10. If 91 identical video games cost \$7489.30, how much did each video game cost?
