

Dividing Money (B)

Calculate each quotient.

1. $13 \overline{) \$416.00}$

2. $14 \overline{) \$1218.00}$

3. $14 \overline{) \$392.00}$

4. $52 \overline{) \$2028.00}$

5. $95 \overline{) \$9120.00}$

6. $28 \overline{) \$1400.00}$

7. $16 \overline{) \$1032.00}$

8. $57 \overline{) \$4731.00}$

9. $69 \overline{) \$4795.50}$

10. If 81 identical backpacks cost \$7857.00, how much did each backpack cost?
