

## Dividing Money (C)

Calculate each quotient.

1.  $17 \overline{) \$1079.50}$

2.  $84 \overline{) \$8064.00}$

3.  $28 \overline{) \$2702.00}$

4.  $66 \overline{) \$3300.00}$

5.  $84 \overline{) \$4536.00}$

6.  $77 \overline{) \$6776.00}$

7.  $73 \overline{) \$1971.00}$

8.  $12 \overline{) \$630.00}$

9.  $85 \overline{) \$1955.00}$

10. If 81 identical toy robots cost \$6439.50, how much did each toy robot cost?
