

## Dividing Money (G)

Calculate each quotient.

1.  $3 \overline{) €28.80}$

2.  $2 \overline{) €26.80}$

3.  $9 \overline{) €48.60}$

4.  $3 \overline{) €34.20}$

5.  $4 \overline{) €18.40}$

6.  $9 \overline{) €14.40}$

7.  $7 \overline{) €30.80}$

8.  $6 \overline{) €34.80}$

9.  $4 \overline{) €52.80}$

10. If 6 identical video games cost €62.40, how much did each video game cost?
