

Dividing Money (J)

Calculate each quotient.

1. $96 \overline{) \text{£}8169.60}$

2. $98 \overline{) \text{£}3800.44}$

3. $39 \overline{) \text{£}3165.24}$

4. $35 \overline{) \text{£}350.70}$

5. $65 \overline{) \text{£}1118.00}$

6. $94 \overline{) \text{£}3447.92}$

7. $83 \overline{) \text{£}6151.96}$

8. $20 \overline{) \text{£}867.60}$

9. $68 \overline{) \text{£}4558.72}$

10. If 24 identical shirts cost £2194.08, how much did each shirt cost?
