

Multiplying with Factors 2 to 19 (H)

Name: _____

Date: _____

Score: _____

Calculate each product.

$16 \times 14 = \square$ $18 \times 16 = \square$ $2 \times 2 = \square$ $2 \times 14 = \square$

$19 \times 15 = \square$ $13 \times 14 = \square$ $18 \times 18 = \square$ $17 \times 8 = \square$

$17 \times 12 = \square$ $14 \times 14 = \square$ $19 \times 2 = \square$ $14 \times 18 = \square$

$19 \times 19 = \square$ $14 \times 17 = \square$ $10 \times 8 = \square$ $13 \times 17 = \square$

$18 \times 19 = \square$ $17 \times 18 = \square$ $8 \times 17 = \square$ $17 \times 2 = \square$

$13 \times 16 = \square$ $12 \times 15 = \square$ $13 \times 5 = \square$ $2 \times 17 = \square$

$19 \times 18 = \square$ $14 \times 15 = \square$ $12 \times 4 = \square$ $2 \times 13 = \square$

$19 \times 12 = \square$ $13 \times 13 = \square$ $4 \times 12 = \square$ $10 \times 3 = \square$

$14 \times 16 = \square$ $16 \times 16 = \square$ $7 \times 13 = \square$ $18 \times 5 = \square$

$17 \times 19 = \square$ $18 \times 12 = \square$ $6 \times 9 = \square$ $17 \times 7 = \square$

$14 \times 19 = \square$ $12 \times 18 = \square$ $12 \times 8 = \square$ $8 \times 6 = \square$

$16 \times 12 = \square$ $19 \times 14 = \square$ $7 \times 10 = \square$ $11 \times 11 = \square$

$17 \times 14 = \square$ $16 \times 18 = \square$ $10 \times 4 = \square$ $13 \times 18 = \square$

$15 \times 16 = \square$ $19 \times 16 = \square$ $16 \times 6 = \square$ $17 \times 6 = \square$

$17 \times 15 = \square$ $16 \times 15 = \square$ $15 \times 12 = \square$ $5 \times 16 = \square$

$18 \times 15 = \square$ $2 \times 15 = \square$ $11 \times 13 = \square$ $6 \times 16 = \square$

$15 \times 19 = \square$ $7 \times 6 = \square$ $6 \times 18 = \square$ $18 \times 4 = \square$

$14 \times 13 = \square$ $14 \times 11 = \square$ $8 \times 15 = \square$ $14 \times 2 = \square$

$13 \times 12 = \square$ $15 \times 13 = \square$ $7 \times 9 = \square$ $8 \times 5 = \square$

$17 \times 13 = \square$ $15 \times 14 = \square$ $6 \times 2 = \square$ $17 \times 5 = \square$

$16 \times 19 = \square$ $5 \times 10 = \square$ $12 \times 19 = \square$ $3 \times 19 = \square$

$15 \times 18 = \square$ $13 \times 19 = \square$ $9 \times 17 = \square$ $16 \times 17 = \square$

$12 \times 13 = \square$ $2 \times 9 = \square$ $9 \times 9 = \square$ $13 \times 6 = \square$

$19 \times 17 = \square$ $18 \times 17 = \square$ $9 \times 10 = \square$ $15 \times 4 = \square$

$12 \times 17 = \square$ $8 \times 10 = \square$ $15 \times 3 = \square$ $16 \times 13 = \square$
