

# Multiplying with Factors 5 to 23 (J)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Score: \_\_\_\_\_

Calculate each product.

$17 \times 16 = \square$

$18 \times 16 = \square$

$22 \times 16 = \square$

$10 \times 21 = \square$

$23 \times 16 = \square$

$22 \times 22 = \square$

$19 \times 9 = \square$

$20 \times 10 = \square$

$16 \times 20 = \square$

$21 \times 16 = \square$

$14 \times 19 = \square$

$14 \times 8 = \square$

$21 \times 19 = \square$

$17 \times 17 = \square$

$16 \times 21 = \square$

$7 \times 21 = \square$

$20 \times 18 = \square$

$22 \times 20 = \square$

$16 \times 18 = \square$

$15 \times 22 = \square$

$17 \times 20 = \square$

$17 \times 23 = \square$

$5 \times 18 = \square$

$16 \times 8 = \square$

$16 \times 17 = \square$

$19 \times 23 = \square$

$14 \times 16 = \square$

$9 \times 19 = \square$

$23 \times 17 = \square$

$22 \times 21 = \square$

$11 \times 17 = \square$

$16 \times 19 = \square$

$16 \times 23 = \square$

$23 \times 21 = \square$

$20 \times 11 = \square$

$16 \times 14 = \square$

$16 \times 16 = \square$

$18 \times 21 = \square$

$23 \times 9 = \square$

$19 \times 21 = \square$

$20 \times 22 = \square$

$15 \times 15 = \square$

$21 \times 17 = \square$

$16 \times 13 = \square$

$18 \times 18 = \square$

$18 \times 23 = \square$

$23 \times 19 = \square$

$18 \times 14 = \square$

$20 \times 19 = \square$

$19 \times 16 = \square$

$20 \times 21 = \square$

$21 \times 18 = \square$

$15 \times 17 = \square$

$21 \times 22 = \square$

$13 \times 12 = \square$

$12 \times 19 = \square$

$17 \times 19 = \square$

$18 \times 19 = \square$

$23 \times 11 = \square$

$6 \times 21 = \square$

$23 \times 22 = \square$

$23 \times 20 = \square$

$5 \times 17 = \square$

$9 \times 10 = \square$

$20 \times 23 = \square$

$17 \times 15 = \square$

$6 \times 15 = \square$

$13 \times 8 = \square$

$22 \times 15 = \square$

$18 \times 15 = \square$

$10 \times 22 = \square$

$18 \times 11 = \square$

$22 \times 18 = \square$

$17 \times 18 = \square$

$15 \times 19 = \square$

$21 \times 23 = \square$

$21 \times 20 = \square$

$22 \times 19 = \square$

$8 \times 20 = \square$

$23 \times 5 = \square$

$18 \times 17 = \square$

$17 \times 11 = \square$

$14 \times 17 = \square$

$6 \times 6 = \square$

$19 \times 19 = \square$

$18 \times 20 = \square$

$7 \times 16 = \square$

$13 \times 20 = \square$

$20 \times 15 = \square$

$14 \times 14 = \square$

$16 \times 11 = \square$

$16 \times 5 = \square$

$21 \times 21 = \square$

$19 \times 18 = \square$

$15 \times 18 = \square$

$15 \times 23 = \square$

$15 \times 20 = \square$

$20 \times 20 = \square$

$9 \times 16 = \square$

$9 \times 6 = \square$
