

Multiplying with Factors 5 to 24 (A)

Name: _____

Date: _____

Score: _____

Calculate each product.

$20 \times 23 = \square$ $19 \times 24 = \square$ $16 \times 20 = \square$ $6 \times 5 = \square$

$21 \times 20 = \square$ $17 \times 18 = \square$ $5 \times 24 = \square$ $12 \times 16 = \square$

$22 \times 16 = \square$ $22 \times 22 = \square$ $20 \times 24 = \square$ $23 \times 13 = \square$

$20 \times 19 = \square$ $21 \times 23 = \square$ $18 \times 15 = \square$ $9 \times 7 = \square$

$22 \times 17 = \square$ $18 \times 17 = \square$ $5 \times 14 = \square$ $13 \times 8 = \square$

$21 \times 17 = \square$ $20 \times 17 = \square$ $23 \times 7 = \square$ $6 \times 7 = \square$

$16 \times 21 = \square$ $20 \times 16 = \square$ $19 \times 8 = \square$ $19 \times 22 = \square$

$18 \times 23 = \square$ $22 \times 24 = \square$ $21 \times 14 = \square$ $14 \times 12 = \square$

$18 \times 18 = \square$ $18 \times 21 = \square$ $6 \times 24 = \square$ $8 \times 22 = \square$

$24 \times 24 = \square$ $18 \times 19 = \square$ $23 \times 8 = \square$ $23 \times 6 = \square$

$23 \times 18 = \square$ $19 \times 19 = \square$ $9 \times 6 = \square$ $6 \times 14 = \square$

$19 \times 23 = \square$ $17 \times 22 = \square$ $17 \times 16 = \square$ $14 \times 13 = \square$

$18 \times 20 = \square$ $21 \times 24 = \square$ $12 \times 21 = \square$ $11 \times 20 = \square$

$22 \times 19 = \square$ $23 \times 19 = \square$ $16 \times 23 = \square$ $7 \times 16 = \square$

$19 \times 16 = \square$ $17 \times 23 = \square$ $6 \times 12 = \square$ $15 \times 18 = \square$

$24 \times 18 = \square$ $16 \times 19 = \square$ $23 \times 15 = \square$ $16 \times 7 = \square$

$18 \times 24 = \square$ $24 \times 17 = \square$ $18 \times 13 = \square$ $8 \times 8 = \square$

$20 \times 20 = \square$ $21 \times 22 = \square$ $6 \times 23 = \square$ $13 \times 16 = \square$

$21 \times 19 = \square$ $22 \times 21 = \square$ $5 \times 8 = \square$ $17 \times 9 = \square$

$23 \times 22 = \square$ $19 \times 20 = \square$ $23 \times 12 = \square$ $13 \times 14 = \square$

$19 \times 21 = \square$ $22 \times 20 = \square$ $10 \times 7 = \square$ $9 \times 14 = \square$

$17 \times 24 = \square$ $17 \times 17 = \square$ $14 \times 24 = \square$ $20 \times 18 = \square$

$23 \times 24 = \square$ $12 \times 17 = \square$ $17 \times 19 = \square$ $15 \times 17 = \square$

$23 \times 23 = \square$ $14 \times 23 = \square$ $21 \times 16 = \square$ $17 \times 14 = \square$

$23 \times 17 = \square$ $9 \times 18 = \square$ $6 \times 10 = \square$ $22 \times 13 = \square$
