

# Multiplying Doubles (J)

Calculate each product.

$6 \times 6 = \underline{\quad}$

$1 \times 1 = \underline{\quad}$

$1 \times 1 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$

$2 \times 2 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$7 \times 7 = \underline{\quad}$

$7 \times 7 = \underline{\quad}$

$2 \times 2 = \underline{\quad}$

$5 \times 5 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$5 \times 5 = \underline{\quad}$

## Multiplying Doubles (J) Answers

Calculate each product.

$6 \times 6 = \underline{36}$

$1 \times 1 = \underline{1}$

$1 \times 1 = \underline{1}$

$6 \times 6 = \underline{36}$

$2 \times 2 = \underline{4}$

$4 \times 4 = \underline{16}$

$3 \times 3 = \underline{9}$

$7 \times 7 = \underline{49}$

$7 \times 7 = \underline{49}$

$2 \times 2 = \underline{4}$

$5 \times 5 = \underline{25}$

$3 \times 3 = \underline{9}$

$4 \times 4 = \underline{16}$

$5 \times 5 = \underline{25}$
