Lattice Multiplication (I)
Use lattice multiplication to find each product.

```
    1   4   1   8
                    9
                    0
                    9
                    0
                    9
```

1418 × 90909 = _____

```
    3   5   0   8
                    5
                    0
                    3
                    9
                    2
```

3508 × 50392 = _____

```
    5   4   0   5
                    8
                    9
                    7
                    3
                    6
```

5405 × 89736 = _____

```
    3   6   0   8
                    7
                    4
                    7
                    9
                    7
```

3608 × 74797 = _____
