Summer Missing Digits Subtraction (G)

Name: _____ Date: _____ Score: _____

Fill in the missing digits that melted in the hot summer sun.

1. $\square 102 - \square 9\square = 68\square$

2. $860 - \square\square\square = 60$

3. $\square 481 - \square\square 7 = 86\square$

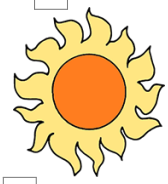
4. $\square\square 10 - 9\square\square = 577$

5. $\square\square 44 - 1\square\square = 964$

6. $5\square 7 - \square 2\square = 272$

7. $\square\square 2\square - 9\square 3 = 210$

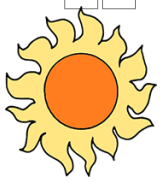
8. $9\square 1 - 35\square = \square 42$



9. $880 - \square\square\square = 636$

10. $5\square 0 - 10\square = \square 75$

11. $370 - \square 65 = 1\square\square$

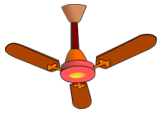


12. $\square 081 - 9\square 8 = \square 5\square$

13. $\square 24 - \square 5 = 58\square$

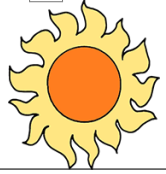
14. $697 - 26\square = \square\square 1$

15. $\square 5\square 7 - 82\square = \square 39$



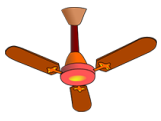
16. $\square 088 - \square\square\square = 936$

17. $\square 187 - 3\square\square = \square 89$



18. $907 - 6\square = \square\square 2$

19. $59\square - \square 33 = \square 2$



20. $4\square 0 - 165 = \square 7\square$
