

Spinner Probabilities (A)

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

1. What is the probability of the spinner landing on a **mongoose** in a single spin?
2. What is the probability of the spinner landing on a **beetle** in a single spin?
3. What is the probability of the spinner landing on a **porcupine** in a single spin?
4. What is the probability of the spinner landing on a **snail** in a single spin?
5. What is the probability of the spinner landing on a **porcupine OR a squirrel** in a single spin?
6. What is the probability of the spinner landing on **an animal without legs** in a single spin?

Spinner Probabilities (A) Answers

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

1. What is the probability of the spinner landing on a **mongoose** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
2. What is the probability of the spinner landing on a **beetle** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
3. What is the probability of the spinner landing on a **porcupine** in a single spin? $\frac{3}{10} = 0.3 = 30\%$
4. What is the probability of the spinner landing on a **snail** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
5. What is the probability of the spinner landing on a **porcupine OR a squirrel** in a single spin?
 $\frac{5}{10} = \frac{1}{2} = 0.5 = 50\%$
6. What is the probability of the spinner landing on an **animal without legs** in a single spin?
 $\frac{2}{10} = \frac{1}{5} = 0.2 = 50\%$
