

Spinner Probabilities (D)

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

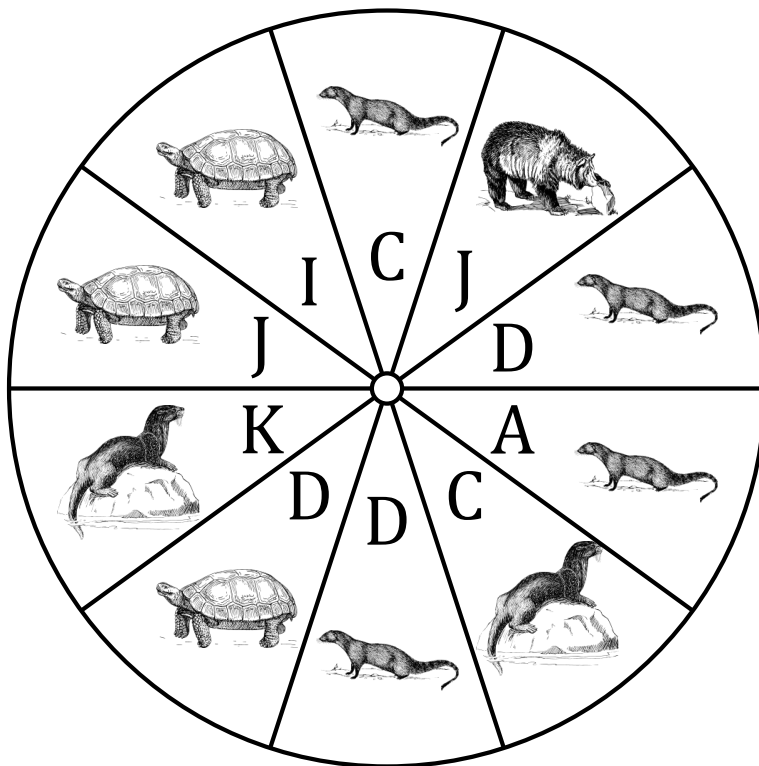

1. What is the probability of the spinner landing on a **J** in a single spin?
2. What is the probability of the spinner landing on a **C** in a single spin?
3. What is the probability of the spinner landing on an **A** in a single spin?
4. What is the probability of the spinner landing on a **tortoise** in a single spin?
5. What is the probability of the spinner landing on a **mongoose** in a single spin?
6. What is the probability of the spinner landing on an **otter** in a single spin?

Spinner Probabilities (D) Answers

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

1. What is the probability of the spinner landing on a **J** in a single spin? $\frac{2}{10} = \frac{1}{5} = 0.2 = 20\%$
2. What is the probability of the spinner landing on a **C** in a single spin? $\frac{2}{10} = \frac{1}{5} = 0.2 = 20\%$
3. What is the probability of the spinner landing on an **A** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
4. What is the probability of the spinner landing on a **tortoise** in a single spin? $\frac{3}{10} = 0.3 = 30\%$
5. What is the probability of the spinner landing on a **mongoose** in a single spin? $\frac{4}{10} = \frac{2}{5} = 0.4 = 40\%$
6. What is the probability of the spinner landing on an **otter** in a single spin? $\frac{2}{10} = \frac{1}{5} = 0.2 = 20\%$
