

Spinner Probabilities (H)

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

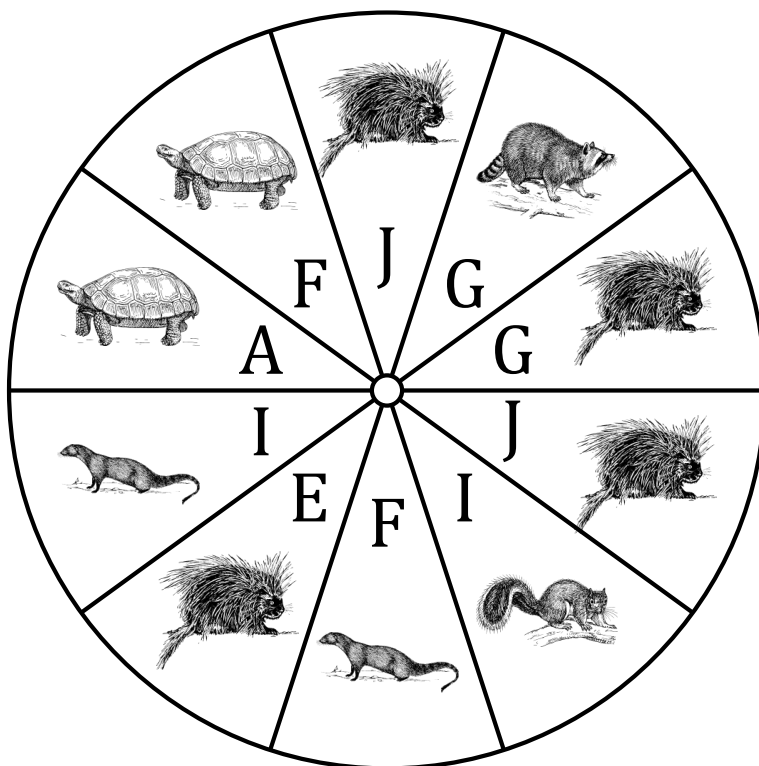

1. What is the probability of the spinner landing on a **G** in a single spin?
2. What is the probability of the spinner landing on an **F** in a single spin?
3. What is the probability of the spinner landing on an **E** in a single spin?
4. What is the probability of the spinner landing on a **squirrel** in a single spin?
5. What is the probability of the spinner landing on a **raccoon** in a single spin?
6. What is the probability of the spinner landing on a **porcupine** in a single spin?

Spinner Probabilities (H) Answers

Name: _____

Date: _____

Calculate the probability of your spinner landing on each situation.

1. What is the probability of the spinner landing on a **G** in a single spin? $\frac{2}{10} = \frac{1}{5} = 0.2 = 20\%$
2. What is the probability of the spinner landing on **an F** in a single spin? $\frac{2}{10} = \frac{1}{5} = 0.2 = 20\%$
3. What is the probability of the spinner landing on **an E** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
4. What is the probability of the spinner landing on a **squirrel** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
5. What is the probability of the spinner landing on a **raccoon** in a single spin? $\frac{1}{10} = 0.1 = 10\%$
6. What is the probability of the spinner landing on a **porcupine** in a single spin? $\frac{4}{10} = \frac{2}{5} = 0.4 = 40\%$
